Education

Invertis University

2023 – 2027

Bachelor of Technology (B.Tech) with a specialization in Artificial Intelligence.

Bareilly, Uttar Pradesh

CGPA 9.3

Relevant Coursework

- Data Structures
- Natural Language Processing
- Algorithms Analysis
- Database Management
- Artificial Intelligence
- Machine learning
- Compiler Designing
- Deep Learning
- Data Analytics

Experience

Technical Associate In Techiguru

Apr. 2026 – Aug. 2026

Data Science / AI-ML Intern

Noida, Uttar Pradesh

- Worked on multiple AI/ML models and intelligent solutions to develop and enhance services offered through the platform.
- Designed, integrated, and refined AI-driven functionalities according to project and service requirements.
- Collaborated with the development team to convert requirements into functional AI-powered tools and services.
- Guided the team in selecting appropriate AI/ML models, technologies, and implementation approaches based on project requirements.
- Translated business and user requirements into scalable AI-driven solutions, ensuring that developed tools aligned with platform objectives.

AICTE – EduSkills (Google for Developers)

Oct. 2025 – Dec. 2025

AI-ML Virtual Intern

Remote

- Completed an intensive 10-week AI/ML virtual internship program supported by Google for Developers.
- Gained hands-on experience in machine learning algorithms, artificial intelligence frameworks, and practical implementation practices.
- Collaborated with team members using version control systems such as Git to organize modifications and assign tasks.

Projects

Nova Sphere-AI Disaster Management System | Python, Machine Learning

September 2025

- Engineered an AI-powered disaster management platform for risk prediction and environmental monitoring.
- Applied machine learning algorithms to analyze disaster-related datasets for predictive insights.
- Built interactive dashboards for real-time alerts and emergency response visualization.

Sonar AI- Generative AI Assistant | NLP, LLMs, RAG

October 2025

- Applied prompt engineering techniques to enhance response quality and accuracy.
- Designed a conversational interface to improve user engagement and usability.
- Utilized the layout editor to create a UI for the application in order to allow different scenes to interact with Assistant.

Smart Learning Management System | Machine Learning, NLP, Dashboard Analytics

December 2025

- Built an AI-enabled learning platform with personalized course recommendation capabilities.
- Analyzed student performance using predictive machine learning models.
- Integrated an NLP virtual assistant for automated student support.

Technical Skills

Programming Languages: Python (Advanced), SQL, Java, C (Basic)

AI/ML & Data Science: Machine Learning, Deep Learning (ANN, CNN, DNN), NLP, TensorFlow, PyTorch, Scikit-learn, Pandas, NumPy, Feature Engineering, Predictive Modeling

Developer Tools & Cloud: Git, GitHub, Antigravity, Google Colab, VS Code, Power BI, MongoDB, AWS, EC2

Achievements / Certifications

- Solved 200+ DSA problems on LeetCode and Coding Ninjas.
- Received the 100% Attendance Award for 10 consecutive years.
- Completed AI-ML and AI-Powered Cloud Engineer Virtual Internships (AICTE, AWS Educate).
- Data Analysis – Microsoft & LinkedIn Learning.
